The AMA Insurance Supplemental Health Insurance Program Made available in collaboration with ArmadaCare Underwritten by Sirius America Insurance Company
Exclusive Access to Specialized Benefit Programs

The AMA Insurance Supplemental Health Insurance Program was developed by ArmadaCare, a leading insurance program manager that delivers unique insurance benefits to the employer market.

These benefits allow physician practices to tax-efficiently* boost coverage for physicians and other select employees to help recruit, retain and reward key talent. With a range of coverage and price points, these add-on insurance plans can be more effective than a comparable bonus or raise in achieving talent management goals.

Unlike typical supplemental insurance plans, this program offers coverage for routine, elective and unexpected healthcare expenses as well as support services to address the full spectrum of emotional well-being concerns.

For each insurance policy secured, AMA Insurance Agency, Inc., a subsidiary of the American Medical Association, receives a standard commission, which is a percentage of the premium collected by ArmadaCare.
A New World
Flexible healthcare benefits that fulfill the needs of today and protect against the unknowns of tomorrow.

Increased Coverage Gaps
The economic downturn and tightening of budgets mean bigger coverage gaps and financial stress for employees. This requires new approaches to filling gaps.

Recruitment and Retention
You need an edge to stay competitive with other practices and healthcare organizations when vying for positions where the talent pool is shrinking. Innovative benefits can deliver.

Total Rewards
Take a fresh look at supplemental benefits as a tax-efficient* way to enhance compensation for physicians and practice leaders, incentivize high-performers and support whole-person well-being for all employees.

Benefits Customization
Deliver the right benefits to the right people at the right time by leveraging primary and supplemental plans together.

Generational Shifts
Different generations have different benefit priorities. Supplemental plans deliver the flexibility needed for multi-generational tailoring.

Effects of Workplace Stress
The demands placed on physicians and clinical staff—increased stress, long work hours and lack of sleep—can be a contributing factor in physical and mental health issues. Boosting mental health and well-being benefits is more important now than ever.
